## About Me

Hello! I'm Samuel and currently I'm a student at Sebelas Maret University Associate Degree in software engineer who is interested in web development.

I have technology interest in html, css (I use Bootstrap & Tailwind for css framework), JavaScript (I'm very helpful with javascript library which helps my project to be more interactive and since I'm interested in frontend I'm learning ReactJS and hope to be expert on this framework), PHP (ever I used this for my BackEnd project and once I used Laravel & CodeIgniter for the framework)

Enthusiasticly Junior Web Developer looking to contribute to team success, attention to detail and pretty good organizational skills, I use github for my team work on some projects. Clear understanding of the jobdesk. Motivated to learn, grow and excel in the Industry.
